LEGAL AND CONSTITUTIONAL HISTORY

Paper I.4

Total Marks: 100 (80+20)

External Exam: 80

Internal Marks: 20 (10 Internal Exam

Aim and Objective:

This course attempts to provide a basic introduction to evolution of Law in India. Study of law relating to a particular country is not complete without understanding the history and development of the Laws and legal institutions. A student of law should be exposed to the ancient social order and religious philosophy as well as to the systems of dispute settlement mechanisms existing in those days. The medieval period had influence in the development of legal system. The advent of the British was an event, which also had its influence.

The traditions of the past have made our modern legal system what it is, and still live on in it. Without a proper historical background, it may be difficult to appreciate as to why a particular feature of the system is as it is. The historical perspective throws light on the anomalies that exist here and there in the system.

Objectives of the Course

The Course structure is designed mainly with three objectives in view. One is to provide adequate sociological perspectives so that the basic concepts relating to family are expounded in their social setting. The next objective is to give an overview of some of the current problems arising out of the foundational inequalities writ large in the various family concepts. The third objective is to view family law not merely as a separate system of personal laws based upon religious but as the one cutting across the religious lines and eventually enabling us to fulfill the constitutional directive of uniform civil code. Such a restructuring would make the study of familial relations more meaningful.

PRINCIPLES OF TAXATION LAWS

Paper 7.35

Total Marks: 100 (80+20)

External Exam: 80

Internal Marks: 20 (10 Internal Exam
10 Project & Viva)

Aims and Objectives of the Course:

The power to tax is an incident of sovereignty; and since the Constitution of India is the supreme law of the land, all other laws, including the Income-tax Act, are subordinate to the Constitution and must be read and interpreted in the light of the constitutional provisions. In *India Cement Ltd. v. State of Tamil Nadu*, a seven-judge Bench of the Supreme Court observed that the Constitution is the mechanic/sm under which the laws are to be made and not merely an Act which declares what the law is to be one of the most important provisions of the Constitution relating to taxation is art 265, which provides. No tax shall be levied or collected except by authority of law. Therefore, not only the levy but also the collection of a tax must be under the authority of some law. Law means law enacted by a competent legislature and cannot include an executive order, or a rule without express statutory authority, or a custom. Thus, any act of the state that seeks to impose a tax without legislative authority will be void.
